

Predicted reaction times holdout data for participant 1, p-value=0.00150

Predicted reaction times holdout data for participant 2, p-value=0.00060

Predicted reaction times holdout data for participant 3, p-value=0.00010

Predicted reaction times holdout data for participant 4, p-value=0.08769

Predicted reaction times holdout data for participant 5, p-value=0.09889

Predicted reaction times holdout data for participant 9, p-value=0.17018

Predicted reaction times holdout data for participant 10, p-value=0.08849

Predicted reaction times holdout data for participant 11, p-value=0.00010

Predicted reaction times holdout data for participant 12, p-value=0.00010

Predicted reaction times holdout data for participant 13, p-value=0.44886

Predicted reaction times holdout data for participant 14, p-value=0.35596

Predicted reaction times holdout data for participant 15, p-value=0.01380

Predicted reaction times holdout data for participant 16, p-value=0.00080

Predicted reaction times holdout data for participant 17, p-value=0.01270

Predicted reaction times holdout data for participant 18, p-value=0.00700
